- Glede na izrazito ofenziven in energičen pristop ministrice dr. Aste Vrečko k zagrizenemu reševanju desetletja zakoreninjenih problemov v slovenski kulturi si dovoljujem upati in pričakovati, da smo na pragu nujno potrebnih sprememb. Ker na bojnem polju ni dostojno samo čakati in gledati, pa morda še kaj pokritizirati, Vas vse, ki Vam je kaj do slovenske kulture, vabim na posvet o viziji kulturne politike z naslovom Kultura za prihodnost, ki ga organizira Ministrstvo za kulturo **v petek, 21. aprila 2023, od 14h do 16h** v Štihovi dvorani Cankarjevega doma, Prešernova cesta 10, 1000 Ljubljana.

Klemen Ramovš

- Given the markedly offensive and energetic approach of the Minister, Dr Asta Vrečko, to resolving the problems in Slovenian culture, which have been entrenched for decades, I dare to hope and expect that we are on the threshold of urgently needed changes. Since it is not decent to just wait and watch on the battlefield, and perhaps criticize something else, I invite all of you who care about Slovenian culture to a consultation on the vision of cultural policy entitled Culture for the Future, organized by the Ministry of Culture, on **Friday, 21 April, 2023, from 2 pm to 4 pm** at Štih Hall of the Cankarjev dom, Prešernova cesta 10, 1000 Ljubljana.

Klemen Ramovš

- Ljubljana, Narodni muzej Slovenije, Metelkova: Pika za piko, barva na platno, kako so nastajale velike umetnine? Z reševanjem ugank v rimah bomo na igriv in zabaven način spoznali izbrana umetniška dela ter prepoznali različne motive – na primer portret, veduto in tihožitje. Z mešanjem osnovnih barv bomo pridobili nove in se pozabavali z ustvarjanjem slike v slogu slovenskih impresionistov. Svojo umetnino bomo odnesli domov in ji namenili poseben prostor.
- Ljubljana, National Museum of Slovenia, Metelkova: Dot by dot, paint on canvas, how were great works of art created? By solving riddles in rhymes, we will get to know selected works of art in a playful and fun way and recognize different motifs - for example, portrait, veduta and still life. By mixing basic colors, we will acquire new ones and have fun creating a picture in the style of Slovenian impressionists. We will take our artwork home and dedicate a special space to it.

- Ljubljana, Narodni muzej Slovenije, Metelkova: Po poteh glasbene dediščine. Glasbeno življenje na ozemlju današnje Slovenije je bilo v preteklih stoletjih zelo intenzivno, čeprav ta prostor nikoli ni bil izrazito središče glasbenega delovanja. Ohranjena glasbila so pomembni elementi naše snovne in nesnovne kulturne dediščine. Odpirajo zgodovinsko ozadje, skozi se predstavljajo slovenski ustvarjalci in izdelovalci ter prisotnost glasbil in glasbenega življenja pri nas. Vljudo vabljeni na vodeni ogled Zbirke glasbil Narodnega muzeja Slovenije. Vodi Vivienne Wieltchnigg, dipl. muzikologinja.
- Ljubljana, National Museum of Slovenia, Metelkova: Along the paths of musical heritage. Musical life in the territory of today's Slovenia was very intense in the past centuries, although this area was never a distinct center of musical activity. Preserved musical instruments are important elements of our tangible and intangible cultural heritage. They reveal the historical background, through which Slovenian creators and makers are presented, as well as the presence of musical instruments and musical life in our country. You are cordially invited to a guided tour of the Musical Instruments Collection of the National Museum of Slovenia. Led by Vivienne Wieltchnigg, B.Sc. musicologist.

- Ljubljana, Narodni muzej Slovenije, Metelkova: Tomaž Lazar: Od srednjeveškega meča do kalašnikovke. Na sprehodu skozi zbirko orožja Narodnega muzeja Slovenije se bomo tokrat posebej posvetili zaščitni opremi. Oklep, izdelan iz železne pločevine, žice ali tudi organskih materialov je bil dolga stoletja neločljiv sopotnik srednjeveških vitezov, bojnikov in poklicnih vojakov. Po daljšem obdobju zatona, ko ga je zasenčil smodnik, se je oklep v obliki neprebojne zaščite ponovno vrnil na bojišča 20. in 21. stoletja. Kako

natanko je potekal ta tehnološki razvoj, bomo поблиže spoznali ob ogledu originalnih primerkov in sodobnih replik.

- Ljubljana, National Museum of Slovenia, Metelkova: Tomaž Lazar: From a medieval sword to a Kalashnikov. On a walk through the collection of weapons of the National Museum of Slovenia, this time we will pay special attention to protective equipment. Armor made of iron sheet, wire or even organic materials was for many centuries an inseparable companion of medieval knights, warriors and professional soldiers. After a long period of decline, when it was overshadowed by gunpowder, armor returned to the battlefields of the 20th and 21st centuries in the form of bulletproof protection. We will learn more about how exactly this technological development took place when we look at original examples and modern replicas.

- Ljubljana, Narodni muzej Slovenije, Metelkova: Gabrovčev dan 2023. Bronasta doba v osrednji Sloveniji – na Gorenjskem in Dolenjskem. Organizatorji znanstvenega simpozija sledijo začrtanemu cilju, da bodo vsako leto obravnavali izbrano železnodobno oziroma bronastodobno regijo, kot jih je opredelil akad. prof. dr. Stane Gabrovec v svojih temeljnih člankih. Težišče je na predstavitvah novih izkopavanj, raziskav in znanstvenih dognanj. Sedmo srečanje je posvečeno bronasti dobi v osrednji Sloveniji – na Gorenjskem in Dolenjskem.
- Ljubljana, National Museum of Slovenia, Metelkova: Gabrovec Day 2023. The Bronze Age in central Slovenia - in Gorenjsko and Dolenjsko. The organizers of the scientific symposium are following the stated goal of discussing each year a selected Iron Age or Bronze Age region, as defined by Acad. prof. dr. Stane Gabrovec in his fundamental articles. The focus is on presentations of new excavations, research and scientific findings. The seventh meeting is dedicated to the Bronze Age in central Slovenia - Gorenjsko and Dolenjsko.

Četrtek / Thursday, 20.4.2023, 15:30

- Ljubljana, Narodni muzej Slovenije, Muzejska: Alenka Miškec: Denar, sveta vladar. Kaj je denar? Kdaj in kje so naredili prvi denar? Kako se je nova ideja kovanega denarja razširila po antičnem svetu? Kakšne so bile cene in plače v rimski državi? Na kratkem predavanju bomo odgovorili na vsa ta vprašanja in še mnoga druga. Po predavanju si bomo na stalni

razstavi ogledali denar iz različnih obdobj, in sicer od prazgodovine do srednjega veka. Najstarejši denar z našega ozemlja so kovanci rimske republike in keltskih plemen, ki so živela na našem ozemlju. V času rimske države so bili v vsakdanjem življenju najpogostejši bronasti kovanci, pozneje, v srednjeveških mestih pa so zopet prevladovali srebrniki.

- Ljubljana, National Museum of Slovenia, Museum: Alenka Miškec: Money, holy ruler. What is money? When and where did they make their first money? How did the new idea of coinage spread throughout the ancient world? What were prices and wages like in the Roman state? In a short lecture, we will answer all these questions and many others. After the lecture, we will see money from different periods at the permanent exhibition, namely from prehistoric times to the Middle Ages. The oldest money from our territory are the coins of the Roman Republic and the Celtic tribes that lived on our territory. During the time of the Roman state, bronze coins were the most common in everyday life, and later, in medieval cities, silver coins dominated again.

Petek / Friday, 21.4.2023, 18:30

- Brežice, Vodovodni stolp: predstavitev virtualne umetniške podobe. Vodovodni stolp predstavlja poseben arhitekturni spomenik tehnične kulture v Sloveniji in velik potencial za obdelavo z novomedijskimi tehnologijami. V pilotnem projektu mreže RUK ga Društvo KIT4 v sodelovanju s KIBLA2LAB, prikazuje kot prvo umetniško virtualno podobo zaščenega spomenika na Slovenskem, ki je višji od 40 metrov. Celotna podoba stolpa, vpetega v mestno okolje, je bila zajeta z dronom, LiDAR scanner-jem in tehniko fotogrametrije. Osnovni virtualni prikaz na zelo atraktiven način prezentira celotno 360 stopinjsko podobo objekta, nadgrajeno s principi umetniškega posega v renderirano sliko. Projekt virtualizacije Vodovodnega stolpa Brežice, ki ga je pripravilo Društvo KIT4 v sodelovanju s KIBLA2LAB in Posavskim muzejem Brežice, je pilotni projekt, izbran na javnem pozivu KID PINA v sklopu Mreže RUK (JP-PR-RUK_1_2022), ki ga sofinancirata Evropska unija iz Evropskega sklada za regionalni razvoj in Republika Slovenija (Ministrstvo za kulturo).
- Brežice, Water tower: presentation of a virtual artistic image. The water tower represents a special architectural monument of technical culture in Slovenia and a great potential for processing with new media technologies. In the pilot project of the RUK network, the KIT4 Society in cooperation with KIBLA2LAB is showing it as the first artistic virtual image of a protected monument in Slovenia, which is higher than 40 meters. The entire image of the tower embedded in the urban environment was captured with a drone, LiDAR scanner and photogrammetry technique. The basic virtual display presents the entire 360 degree image of the object in a very attractive way, upgraded with the principles of artistic intervention in the rendered image. The project of virtualization of the Brežice Water Tower, prepared by the KIT4 Society in cooperation with KIBLA2LAB and the Posavski Museum of Brežice, is a pilot project selected at the public call of KID PINA as part of the RUK Network (JP-PR-RUK_1_2022), which is co-financed by the European Union from

the European regional development fund and the Republic of Slovenia (Ministry of Culture).
